MISCELLANEOUS DEPARTMENT.

PUBLIC WORKS.

No. P. W., dated 23rd December 1922.

Notice is hereby given that summer supplies of water will be made available for growing sugar-cane and hot weather crops (other than paddy) during the next season, *i.e.*, the hot weather months of 1923, commencing from 15th February, under the following channels below the Krishnarajasagara Reservoir within the reaches specified below:—

1. Left Bank Low Level Canal. Full length 12¾ miles.
2. Right Bank Low Level channel 17 miles, including the portion of the Extension newly opened out for irrigation.
3. Ramaswami channel. First half-length 22¼ miles.
4. Rajaparameswari channel. First length of 16¾ miles.
5. Madhavamanthri channel. First half-length 10 miles.
6. Devaroy channel, 5th to 18th milestone.

The supply will not be a continuous one, but intermittent, the channels being opened for ten days in a month and closed during the remaining twenty days for the necessary repairs to the channels. This kind of intermittent supply will be arranged by rotation for convenient sections of the channels to prevent unnecessary wastage of water.

The opening and closing of these channels during the hot weather shall rest with the officer in charge of these channels. The officer in charge will duly notify the dates of opening and closing of the channels or sections of them in each month and also issue necessary instructions to regulate the supplies for cultivation.

2. Applications for hot weather supply under the channels and in the reaches noted in paragraph 1 must be submitted to the Executive Engineer, Channels Division, French Rocks, so as to reach him before the 31st January 1923, in the form annexed to this notification with full particulars of information duly filled in the respective columns.
